**Due to the nature of Leather and Canvas production, colour variations may occur.*

Tick marks, scars and scratches that you may find on our products are natural. It's hell in Africa!

**The mesh used in our BREEZY range constitutes more than 3% of the component quantity, therefore we are unable to claim a UPF 50+ factor. However, the hat is cooler and the broad brim does protect the eyes, nose and ears to the same level as the others.*

FOOTWEAR

GAITER SAMPLES

ROGUE SOUTH AFRICA, DE RUST FARM, HAZYVIEW, MPUMALANGA, SOUTH AFRICA

We've reached a Milestone!

ROGUE is 50 Years old and still going strong...

From humble beginnings in a rented Cow Shed on a farm in Nelspruit in 1974 to our own 1800sqm factory in Hazyview, two generations of the Selke family are still manufacturing top quality Leather and Canvas headwear, footwear, luggage and Accessories for both the Local and International market all under one roof.

For this we owe our sincere gratitude to our loyal customer base, some of whom have been with us from the start and to our loyal and dedicated staff..some still with us after 40 years. Without these key components, this incredible journey would not have survived 50 years in a tough manufacturing environment.

To our Staff, Customers, Reps and Suppliers, I'd like to express my sincere "Thank You" and may the journey continue.

Trevor Selke.

TAKING YOU ON
adventure!
