CUSTOM-BUILT TRAILER SOLUTIONS

Kitchen • Toilet • Cold & Freezer Trailers

Enclosed trailer body — the platform every custom build starts from

Standard models available • Fully custom builds to your specification • Galvanised steel chassis • Weatherproof panel construction

Standard & Custom-Built Trailers

We build enclosed trailers for catering, ablution and cold-storage applications — available as standard models or fully custom-built to your layout, equipment and finish. Every trailer shares the same foundation: a robust, weatherproof body engineered for years of hard use in the field.

Built to Last

- Galvanised steel chassis and corner trim throughout
- Smooth, weatherproof panel cladding on walls and roof
- Sealed, lockable doors with heavy-duty hinges and handles
- Single-axle running gear with a jockey wheel for easy towing and levelling
- Reflective safety striping and indicator lighting fitted as standard

Standard or Fully Custom

Choose a standard configuration off the shelf, or work with us on a fully custom build: internal layout, hatches and counters, plumbing, refrigeration and finishes can all be specified to suit your business.

In this catalogue

- **Kitchen Trailers** — Mobile catering trailers, custom-configured around your equipment
- **Toilet Trailers** — Self-contained his & hers ablution trailers for events and camps
- **Cold & Freezer Trailers** — Insulated, refrigerated trailers for cold storage in the field

Kitchen Trailers

Mobile kitchen trailers built to order for catering businesses, events and food ventures. Every unit is custom-configured around your equipment, layout and service style, on the same galvanised chassis and weatherproof body used across our range.

Custom Configuration Options

- Layout designed around your equipment and workflow
- Serving hatches, counters and extraction fitted to specification
- Insulated wall and roof panelling for a stable working environment
- Heavy-duty galvanised chassis and running gear as standard
- Available in a range of lengths for single or multi-station kitchens

Photography of a completed Kitchen Trailer build is available on request — get in touch to discuss your specification.

T Toilet Trailers

His & hers toilet trailer with fold-down access stairs

Self-contained ablution trailers for events, hunting camps and construction sites, with separate cabins in a single, easily towed unit.

Standard Features

- Separate his & hers cabins within a single trailer body
- Fold-down aluminium access stairs at each door
- Reflective safety striping and indicator lighting
- Robust single-axle chassis with a jockey wheel for towing
- Low-maintenance, weatherproof panel construction

Cold & Freezer Trailers

Insulated, refrigerated trailers built for cold storage and transport in the field — well suited to game meat, catering stock or other perishable goods.

External refrigeration condensing unit

Insulated side access hatch

Standard Features

- Fully insulated wall, roof and floor panelling
- External refrigeration condensing unit with digital controller
- Insulated access hatch for loading without opening the main door
- Galvanised chassis and corner trim for outdoor durability
- Single-axle running gear with a jockey wheel for towing
